

the untouchable™

Multifunctional sensor faucet systems
for the dosage of water, soap and disinfectant

QUALITY MADE IN GERMANY

The body of all *The Untouchable™* faucet systems is made of high quality AISI 316 stainless steel, offering excellent corrosion resistance. The robust design offers maximum protection against vandalism.

SUPERIOR HYGIENE STANDARD

- ▶ **Touchless operation:**
The Untouchable™ faucet systems offer complete touch-free dispensing of water, soap and disinfectants. The risk of cross contamination is significantly reduced, ensuring the best possible hygiene standard.
- ▶ **Automatic cleaning and rinsing function:**
The integrated, automatic cleaning and rinsing function prevents water stagnation, thus avoid the risk of legionella bacteria growth.

COMPACT INSTALLATION

In contrast to conventional washing area solutions, *The Untouchable™* integrates the automatic dosage of water, soap and disinfectants in one compact system. This allows a particularly space-saving installation.

Water

		Art. No.
MW bent	for work-top integration	5400001
MW straight	for wall-mounting	5400002

Water and Soap

		Art. No.
MWS bent	for work-top integration	5400005
MWS straight	for wall-mounting	5400006

Water, Soap and Disinfectant

		Art. No.
MWSD bent	for work-top integration	5400007
MWSD straight	for wall-mounting	5400008

Soap and Disinfectant

		Art. No.
SD bent	for work-top integration	5400143
SD straight	for wall-mounting	5400142

the untouchable™

CONVENIENT OPERATION

Activation of the desired medium (water, soap, disinfectant) by hand motion.

FILLING GOODS AND DOSAGE

- ▶ Compatible with 1,000 ml standard Euro bottles
- ▶ Suitable for standard, low-viscosity liquid soaps and alcoholic hand disinfectants
- ▶ Refillable when using bottles with wide bottle neck
- ▶ Adjustable dosage
 - Soap approx. 1 ml up to approx. 2.5 ml
 - Disinfectant approx. 0.8 ml up to approx. 2.0 ml
 - Water flow time 1 up to 180 seconds
